Volterra

Welcome to the Projet Volterra wiki.

The Projet Volterra was established in honour of the memory of the distinguished Roman lawyer Edoardo Volterra (1904-1984), whose widow left his substantial and rich collection of Roman law books to the École Française de Rome. A catalogue of the older items, with reminiscences by relatives and colleagues, has now been published by Douglas Osler as vol. 3 in the series Bibliographica Iuridica (Frankfurt-am-Main, 2006). The general aims of the Projet Volterra are to promote the study of Roman law in its full social, political and legal context.

Please see the Projet Volterra web pages for more information about the project.

This wiki space is an easy way of maintaining Projet Volterra internet based resources.
