Lecturecast Home Page

Use the Lecturecast system to schedule and manage lecture recordings of teaching events, add and share materials with participants via Moodle and monitor and gather information about your classes.

These Wiki pages contain important information about how the system operates at UCL including guidance on scheduling and accessing recordings.

From 1 August 2018, Lecturecast recordings can be scheduled for the upcoming 2018/19 academic year, commencing 27 August. However, from this date it will not be possible to create or change any scheduled recordings taking place between 1 to 26 August. Please make sure any recordings required during this period are scheduled before 31 July 2018.

Help and Support
For help and support, please email lecturecast@ucl.ac.uk
The Lecturecast Project team are going to migrate all Legacy recordings to Lecturecast before the Legacy system is decommissioned. The target date for the migration is July 2018.

Once the migration has been completed we will provide instructions for you to access your migrated recordings.

In the interim, if you need to access a Legacy recording you can:
- Download individual recordings and upload them to the new system (refer to the Migrate Legacy content guide for instructions)
- Provide students a link to the particular recording in the Legacy system

**NOTE:** There is currently no process for bulk downloading of legacy recordings.
