Globally De-activating Portico Enrolments W/C 4th November 2019

Portico enrolments will be globally deactivated in Moodle in the week commencing 4th November 2019. This is usually done six weeks from the start of each term.

How will this impact students on my course?

- Students who are already enrolled on a Moodle course WILL continue to have access to their course(s) and WILL NOT be unenrolled.
- Students enrolling on Portico after the deactivation WILL NOT be automatically enrolled onto the corresponding Moodle course. Students can still be manually enrolled.
- Students who leave the course WILL NOT be automatically un-enrolled.

For more information, please see the Globally de-activating Portico information page.

The Digital Education team provide a range of UCL specific Moodle guides here. You can also browse the official Moodle guides at Moodle.org. The page 'Release Notes' lists all the latest functionality you can use with Moodle. If you are looking for information about other e-learning tools aside from Moodle and Turnitin please see the UCL E-Learning website.

Please also have a look at the E-learning Wiki for a whole range of more pedagogically focused e-learning articles.

Contact servicedesk@ucl.ac.uk if you can't find what you are looking for.

Student E-Learning Help guides are also available.
