## Devis Di Tommaso

I have just started a Royal Society Industry Fellowship between Chemistry UCL and AstraZeneca. Before that, I was a postdoc in Nora de Leeuw group.

My research interests are in the simulation of crystal nucleation, metals in solution, as well as homogeneous catalysis.

**Email:** [uccaddi@ucl.ac.uk](mailto:uccaddi@ucl.ac.uk)

## Jamie Christie

I'm a postdoc working for Antonio Tilocca. I work on simulations of amorphous materials, especially those of biomedical interest.

I also spent some of 2011 working at the Government Office for Science, funded by a UCL Enterprise Secondment.

**Email:** [jamieson.christie@ucl.ac.uk](mailto:jamieson.christie@ucl.ac.uk)

## [Charlie Dunnill](#)

I am a Ramsay Fellow who also works for Ivan Parkin. I help out with running the Quartyz database, teach third year core inorganic chemistry first year inorganic labs and try and publish as many papers as I can.

### Contacts:

[C.Dunnill@ucl.ac.uk](mailto:C.Dunnill@ucl.ac.uk)

Ext: 25814

Office 318

### Academic Interests:

- Self-Cleaning Photocatalysts
- Antimicrobial Surfaces for Healthcare
- Hydrogen Production and Processing

### Extra Curricular Activities:

- [Canoe Polo](#)

## Helen Grounds

I'm the organic section lab manager working for Jim Anderson.

**Email:** [h.grounds@ucl.ac.uk](mailto:h.grounds@ucl.ac.uk)

## [Andy Kerridge](#)

I am an EPSRC Career Acceleration Fellow, Grant [EP/J002208/1](#) - 'Theoretical studies of actinide complexation with macrocyclic ligands: identifying synthetic targets and real-world applications'

### Contact:

- [a.kerridge@ucl.ac.uk](mailto:a.kerridge@ucl.ac.uk)

### Research Interests:

- Relativistic quantum chemistry

- Fundamental f-element chemistry
- Topological analysis of molecular systems
