

3 Grass radical

Three characters with the grass radical

The grass radical is the three strokes at the top. Draw the horizontal one first. (Although drawing the first vertical one before the horizontal one does produce rather a nice shape!)

Hu 'flower'

The sound is coming from huà as in huàxué 'chemistry'.

Co 'grass'

The sound is coming from zǎo 'early'.

Chá 'tea'

The sound doesn't have much to do with yú 'surplus'.
