Covid-19 teaching continuity

Please be advised that UCL’s Teaching and Assessment Continuity webpages offer fully up-to-date resources and guidance to support colleagues to teach remotely across a variety of approaches, including lectures, seminars and group study, tutorials, and project supervision. You are advised to follow links at this location rather than search for resources independently.

Drop in sessions for Moodle will be offered to support staff in teaching online. Please visit the Digital Education blog for further information.

The Moodle Roadmap can now be found on our Wiki pages here: See link to Moodle Roadmap.

This is an effort to make our plans and direction of travel with Moodle developments more transparent and engaging. The Moodle Roadmap will show the next twelve (12) months of the platform's development planning, including standard security releases, platform updates, and end-user feature enhancements/requests. This roadmap is intended to be a living document and will provide an active view into our internal roadmap, and will be updated on a weekly basis by the Moodle Service Owner.
